Long-term regulation of microglia

Role of epigenetic mechanisms, inflammatory events and diet

Wandert Schaafsma

Research described in this PhD dissertation was conducted at the Section Medical Physiology, Department of Neuroscience, University Medical Centre Groningen, University of Groningen, the Netherlands.

The research in this PhD dissertation was in part funded by the Ministry of Economic Affairs, the Provinces of Drenthe and Groningen, and Friesland Campina and stichting Jan Kornelis de Cock.

Printing of this dissertation was supported by:

Universitair medisch centrum Groningen

Research School BCN

University of Groningen

Science Impact, Winnipeg, Canada

Print: Ipskamp Printing

ISBN printed version: 978-94-034-0971-9

ISBN electronic version: 978-94-034-0970-2

Long-term regulation of microglia

Role of epigenetic mechanisms, inflammatory events and diet

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 12 september 2018 om 09.00 uur

door

Wandert Schaafsma

geboren op 23 mei 1984
te Leeuwarden, Nederland

Promotores

Prof. dr. B.J.L. Eggen

Prof. dr. H.W.G.M. Boddeke

Beoordelingscommissie

Prof. dr. H.J. Verkade

Prof. dr. P.J. Lucassen

Prof. dr. I. Bechmann

Contents

Chapter 1.....	7
General introduction	
Chapter 2.....	39
Long-lasting pro-inflammatory suppression of microglia by LPS-preconditioning is mediated by RelB-dependent epigenetic silencing	
Chapter 3.....	83
Maternal inflammation induces immune activation of fetal microglia and leads to disrupted microglia immune responses, behavior, and learning performance in adulthood	
Chapter 4.....	107
Low-fat diet with caloric restriction reduces white matter microglia activation during aging	
Chapter 5.....	137
An in-vitro model to screen potential anti-inflammatory nutritional compounds for their potential to modulate activation of microglial cells	
Chapter 6.....	157
General discussion, summary and future perspectives	
Chapter 7.....	169
Nederlandse samenvatting en acknowledgements	
List of publications.....	180
